BlackBerry. Howto... set up BlackBerry Parental Controls

With Parental Controls you can block content, turn features on or off, and decide what types of communication are available.

When you turn on Parental Controls, a four-digit PIN is required to change the allowed services, which prevents children or other parties from changing the settings.

The BlackBerry[®] Parental Controls application is now available for all BlackBerry[®] 6 and BlackBerry[®] 7 OS smartphones and will soon be available on BlackBerry[®] 5 OS smartphones.

For BlackBerry[®] smartphones bought before Summer 2012, you may need to download the Parental Controls application from BlackBerry[®] App World[™]. Simply type 'Parental Controls' into the search box in App World[™] then select the application to download. Alternatively, you can scan this QR code in App World[™] by hitting the Menu key and selecting 'Scan a Barcode'.

Step 1

BlackBerry[®] Curve[™] 9320 smartphone

Turn on Parental Controls

*** BlackBerry

a. On the home screen or in a folder, click the 'Options' <Wrench> icon.

b. Click 'Security'.

- c. Click 'Parental Controls'.
 - Personal Controls Personal Controls Mercent Controls Control Controls Control Controls Contro
- d. Select the 'Enable' checkbox to turn on Parental Controls.

Step 2

Select Parental Control options

You can select one or more of the following options to allow or limit the use of the Parental Controls feature. For example, to allow the uploading of files to YouTube™, select the YouTube™ Uploader checkbox. This restriction does not limit access to the YouTube™ website – it only limits the ability to upload videos to the site.

Step 3

Save your Parental Control settings

Once you have set all the Parent Control features you wish, save your settings and enter a four-digit PIN as follows:

a. Press the Menu key, then Save.

b. Enter your four-digit password. Click OK.

For other features,

the following applies:

→ To allow phone calls, select

To limit incoming calls

to stored contacts, select

the Limit incoming calls

to contacts checkbox

→ To allow text messages, select

the Text Messages checkbox

To allow the exchange of files

over a Bluetooth connection.

select the Bluetooth checkbox

Location services checkbox

select the Browser checkbox

To allow the use of location services, like GPS, select the

→ To allow internet access,

To allow the installation

installations checkbox

of third party applications, select the Application

the Phone checkbox.

c. Enter the four-digit password again to confirm. Click OK.

Step 4

Change your Parental Control settings

- a. On the home screen or in a folder, click the 'Options' <Wrench> icon.
- b. Click 'Security', then 'Parental Controls'.
- c. Make changes to your options.
- d. Press the 💷 key, then 'Save'.
- e. Enter your four-digit PIN. Click 'OK'.
